

Risk Assessment study

Conduct the following survey four times. Ask each of the following (male under 20, female under 20, male over 30, female over 30) to rank the following items on how risky they are.

Record the data and bring it to class where we will compile it.

- Say this to each participant "Please rate the following risks on a 1 to 10 scale, 10 being an activity or event which you perceive as a great risk to an individual in the United States and a 1 being an activity or event which you perceive as a minor risk to an individual in the United States."

Record all answers, put name of person in box with age

Activity	Male under 20	Female under 20	Male over 25	Female over 25	Average for your four
Riding a bicycle					
Ewaste					
College spring break trip					
Smoking
